ABOUT

Results-driven Computer Engineering graduate from De La Salle Lipa with hands-on experience in full-stack development, database management, and UI/UX optimization. Proven ability to engineer responsive applications, and the software head behind an award-winning thesis project that successfully integrated computer vision models. Combines robust technical execution with strong cross-functional leadership, having previously driven a 300% increase in team production output. With experience in building interfaces using ReactJS, FlutterFlow, HTML, Java, and Python.

PROFESSIONAL EXPERIENCE

LikhaInternet Inc. <i>Internship, Junior App Developer</i>	Mataas na Kahoy, Batangas <i>Jun 2025 – Jul 2025</i>
Front-End Engineering & UI/UX: Designed and engineered highly intuitive, low-friction user interfaces for two cooperative-management applications using FlutterFlow, implementing responsive design principles to seamlessly present complex features like an accounting dashboard, e-commerce interface, and real-time chat. Data Visualization & UI Integration: Streamlined the monitoring of cooperative operations by transforming complex SQL backend queries into clear, visually accessible, and easy-to-read front-end dashboards for members and employees. Interface Optimization & Debugging: Addressed and resolved critical visual glitches and UI rendering issues specifically targeting Assertion, Pixel Overflow, and Null errors to ensure a seamless and polished user experience across all device views.	

LEADERSHIP EXPERIENCE

Association of Computer Engineering Students (DLSL - ACES) <i>Director for Video and Audio Productions</i>	De La Salle Lipa, Lipa City <i>Aug 2023 – Jun 2026</i>
Department Productivity: Directed original media initiatives and created recognizable video themes, enabled a 300% increase in productivity scaling output to 40 projects, and boosting user impressions by more than 10,000. Team Mentorship & Branding: Mentored the creative team on brand consistency and UI/UX design standards, providing targeted critiques to ensure all assets met rigorous quality benchmarks. Technical Event Operations: Spearheaded the end-to-end coordination and technical operations for major events, successfully managing logistics for over 1,000 attendees during the “ICpEP Regional General Assembly”.	

PROJECTS

Techno-Fitness: Leveraging Computer Vision and Workout Assistant Coach <i>Thesis Project</i>	Apr 2025 – Nov 2025
Real-Time Feedback & Interface Design: Designed the graphical user interface for "Techno-Fitness," an award-winning workout assistant. Utilized Python and the PyQt6 library to translate real-time computer vision data (OpenCV and Mediapipe) into clear, intuitive visual cues, properly guiding users to correct their posture and achieve an 86.08% "excellent" detection rating. Front-End Development & Data Presentation: Streamlined the user journey by transforming offline JSON data into dynamic, easy-to-read visual dashboards. This visually optimized the interface for workout scheduling, account management, and seamless progress tracking. Frictionless User Interactions: Designed a secure and intuitive authentication flow, focusing on a smooth login interface and seamless navigation to ensure a highly accessible experience for the end-user.	
Cooperative Accounting and Members App <i>LikhaInternet Inc.</i>	Jun 2025 – Jul 2025
Interface & UI/UX: Designed and engineered a highly intuitive, responsive application interface using FlutterFlow. Actively minimized navigational friction and streamlined the digital accounting workflow for cooperative management. Data Visualization Integration: Transformed complex backend SQL queries from Supabase into visually accessible, easy-to-read front-end dashboards, significantly enhancing data readability for administrative staff.	

EDUCATION

De La Salle Lipa <i>College - Bachelor of Science in Computer Engineering</i>	Lipa City, Batangas <i>Sep 2022 – Jun 2026</i>
White Excellence Award: Awarded in recognition of the outstanding involvement and effort as a student leader contributing to the success of the programs geared towards student development. Best Thesis: Recognized with the 3rd Best Thesis award at the recently held “2026 ACES Month: Hackathon Pitching” event for its unique and innovative features and design.	

SKILLS

Technical: Java, C++, Python, CSS, JavaScript, ReactJS, Github, HTML, SQL, Figma, Canva, FlutterFlow, Visual Studio Code
Soft Skills: Team Management, Critical Thinking, Problem Solving, Creative, Troubleshooting, Documentation
